O'RGAN. n. f. [organe, Fr. *ὄργανον*.] 1. Natural instrument; as the tongue is the organ of speech,
the lungs of respiration.
When he shall hear she died upon his words,
The ever lovely organ of her life
Shall come apparell'd in more precious habit,
Than when the liv'd indeed. *Shakespeare.*
For a mean and organ, by which this operative virtue
might be continued, God appointed the light to be united,
and gave it also motion and heat. *Raleigh.*
The aptness of birds is not so much in the conformity of
the organs of speech, as in their attention. *Bacon.*
Wit and will
Can judge and chuse, without the body's aid;
Tho' on such objects they are working still,
As thro' the body's organs are convey'd. *Davies.*

2. An instrument of musick consisting of pipes filled with wind
and of stops, touched by the hand. [Orgue, Fr.]
A hand of a vast extension, and a prodigious number of
fingers playing upon all the organ pipes in the world, and
making every one found a particular note. *Keil.*
While in more lengthen'd notes and flow,
The deep, majestic, solemn organs blow. *Pope.*

ORGANICAL. } adj. [organique, Fr. *organicus*, Lat.]
ORGANICK. } 1. Consisting of various parts co-operating with each other.
He rounds the air, and breaks the hymnick notes
In birds, heav'n's choristers, organick throats;
Which, if they did not die, might seem to be
A tenth rank in the heavenly hierarchy. *Donne.*
He with serpent tongue
Organick, or impulse of vocal air,
His fraudulent temptation thus began. *Milt. P. Lost.*
The organical structure of human bodies, whereby they
live and move and are vitally informed by the soul, is the
workmanship of a most wise, powerful, and beneficent be-
ing. *Bentley's Sermons.*

on the organ.
He is an organist, and serves that office in a publick choir.
Boyle on Colours.

ORGANIZATION. n. f. [from organize.] Construction in which
the parts are so disposed as to be subservient to each other.
Every man's senses differ as much from others in their figure,
colour, site, and infinite other peculiarities in the organiza-
tion, as any one man's can from itself, through divers acci-
dental variations. *Glanv. Sceps. c. xxv.*
That being then one plant, which has such an organiza-
tion of parts in one coherent body, partaking of one com-
mon life, it continues to be the same plant, though that life
be communicated to new particles of matter, in a like con-
tinued organization. *Locke.*

TO ORGANIZE. v. a. [organiser, Fr. from organ.] To con-
struct so as that one part co-operates with another; to form
organically.
As the soul doth organize the body, and give unto every
member thereof that substance, quantity, and shape, which

ORI

nature seeth most expedient, so the inward grace of sacra-
ments may teach what serveth best for their outward form.
Hooker, b. v. f. 58.

A genial and cherishing heat so acts upon the fit and
obsequious matter, wherein it was harboured, as to organize
and fashion that disposed matter according to the exigencies
of its own nature. *Boyle.*
Those nobler faculties in the mind, matter organized could
never produce. *Roy on the Creation.*
The identity of the same man consists in a participation
of the same continued life, by constantly fleeting particles in
succession vitally united to the same organized body. *Locke.*

ORGANOLOFT. n. f. [organ and loft.] The loft where the or-
gans stand.
Five young ladies of no small fame for their great seve-

animals. *Bentley's Sermons.*
2. Fountain; source; that which gives beginning or existence.
Nature which contains its origin,
Cannot be border'd certain in itself. *Shakespeare. King Lear.*
If any station upon earth be honourable, theirs was; and
their posterity therefore have no reason to blush at the me-
mory of such an original. *Atterbury.*
Original of beings! pow'r divine!
Since that I live and that I think, is thine. *Prior.*
These great orbs,
Primitive founts, and origins of light. *Prior.*

3. First copy; archetype; that from which any thing is tran-
scribed or translated. In this sense origin is not used.
Compare this translation with the original, and the three
first stanzas are rendered almost word for word, and not only
with the same elegance, but with the same turn of expression.
Addison's Spectator, No. 229.
External material things, as the objects of sensation; and
the operations of our minds within, as the objects of re-
flection; are the only originals from whence all our ideas take
their beginnings. *Locke.*

4. Derivation; descent.
They, like the seed from which they sprung, accurst
Against the gods immortal hatred nurs'd;
An impious, arrogant, and cruel brood,
Expressing their original from blood. *Dryden.*

O'RIGINAL. adj. [originalis, Fr. *originalis*, Latin.] Primitive;
pristine; first.
The original question was, whether God by this law hath
forbidden the giving any worship to himself by an image?
Stillingfleet on Idolatry.
Had Adam obeyed God, his original perfection, the know-
ledge and ability God at first gave him, would still have
continued. *Wake's Prop. for Death.*
You still, fair mother, in your offspring trace
The stock of beauty destin'd for the race;
Kind nature, forming them the pattern took,
From heav'n's first work, and Eve's original look. *Prior.*

O'RIGINALLY. adv. [from original.] 1. Primarily; with regard to the first cause.
A very great difference between a king that holdeth his
crown by a willing act of estates, and one that holdeth it
originally by the law of nature and descent of blood. *Bacon.*

tence.

O'RIGINATION. n. f. [originatio, Lat. from originate.] The act
of bringing into existence; first production.
The tradition of the origination of mankind seems to be
universal; but the particular methods of that origination ex-
cogitated by the heathen, were particular. *Hale.*
This crua is propagated by animal parents, to wit, but-
terflies, after the common origination of all caterpillars. *Roy.*
Descartes first introduced the fancy of making a world,
and deducing the origination of the universe from mechanical
principles. *Keil.*

O'RISONS. n. f. [oraison, French: this word is variously ac-
cented; Shakespeare has the accent both on the first and se-
cond syllables; Milton and Crashaw on the first, others on
the second.] A prayer; a supplication.
Nymph, in thy orisons
Be all thy sins remember'd. *Shakespeare. Hamlet.*
Alas! your too much love and care of me,
Are heavy orisons 'gainst this poor wretch. *Shakespeare.*
He went into St. Paul's church, where he had orisons and
Te Deum sung. *Bacon's Henry VII.*
My wakeful lay shall knock
At th' oriental gates, and duly mock
The early larks shrill orisons, to be
An anthem at the day's nativity. *Crashaw.*
His daily orisons attract our ears. *Sandys on Job.*
Lowly they bow'd, adoring, and began
Their orisons, each morning duly paid. *Milton.*
So went he on with his orisons,
Which, if you mark them well, were wise ones. *Cotton.*
Here at dead of night
The hermit oft, mid his orisons, hears
Aghast the voice of time disparting tow'rs. *Dyer.*

O'RLOP. n. f. [overloep, Dutch.] The middle deck. *Shimm.*
A small ship of the king's called the Penfie, was assailed by
the Lyon, a principal ship of Scotland; wherein the Penfie
so applied her shot, that the Lyon's orelop was broken, her
sails and tackling torn; and lastly, she was boarded and
taken. *Hoyward.*

O'ORNAMENT. n. f. [ornamentum, Lat. *ornament*, Fr.]
1. Embellishment; decoration.
So may the outward shows be least themselves;
The world is still deceiv'd with ornament. *Shakespeare.*
The Tuscan chief, to me has sent
Their crown, and every regal ornament. *Dryden.*
No circumstances of life can place a man so far below the
notice of the world, but that his virtues or vices will render
him, in some degree, an ornament or disgrace to his pro-
fession. *Rogers, Sermon 9.*

2. Honour; that which confers dignity.
The persons of different qualities in both sexes, are in-
deed allowed their different ornaments; but these are by no
means costly, being rather designed as marks of distinction
than to make a figure. *Addison on Italy.*

O'ORNAMENTAL. adj. [from ornament.] Serving to decoration;
giving embellishment.
Some think it most ornamental to wear their bracelets on
their wrists, others about their ancles. *Brown.*
If the kind be capable of more perfection, though rather
in the ornamental parts of it, than the essential, what rules
of morality or respect have I broken, in naming the defects
that they may hereafter be amended? *Dryden.*
Even the Heathens have esteem'd this variety not only
ornamental to the earth, but a proof of the wisdom of the
creator. *Woodw. Nat. Hist.*
If no advancement of knowledge can be had from univer-
sities, the time there spent is lost; every ornamental part of
education is better taught elsewhere. *Swift on Religion.*

O'ORNAMENTALLY. adv. [from ornamental.] In such a man-
ner as may confer embellishment.

O'ORNAMENTED. adj. [from ornament.] Embellished; be-
decked.

O'ORNATE. adj. [ornatus, Lat.] Bedecked; decorated; fine.
